PROFESSIONAL SUMMARY

Creative Multimedia Specialist and AI Visual Director with a Master of Science in Information Technology Management and **experience spanning generative AI** production, multimedia design, business intelligence visualization, executive reporting and print production.

Specializes in directing human-led AI workflows to produce brand-aligned video, visual effects, digital presenters, bespoke audio, publication materials and immersive visual concepts. Combines creative direction with technical precision to transform complex ideas into clear, polished and emotionally engaging communication assets.

CORE EXPERTISE

- Generative AI video and image production
- AI-assisted filmmaking and visual effects
- AI avatars, voice cloning and audio dubbing
- Power BI dashboards and reporting
- Data storytelling and information design
- DTF apparel and merchandise production
- Creative direction and prompt architecture
- Corporate video and promotional content
- Graphic design and visual identity
- Publication and desktop publishing
- UI/UX and digital design
- Stakeholder and executive communication

PROFESSIONAL EXPERIENCE

MECA EMPLOYERS CONSULTING AGENCY

Creative Multimedia Executive | February 2026 – October 2026

- Direct end-to-end multimedia projects using generative AI, visual design, video editing and audio production.
- Develop internal newsletters, mini-magazines, brochures, event posters and other publication-ready corporate materials.
- Direct AI-assisted video productions, including scripting, voiceover development, digital presenters, editing and final delivery.
- Use ElevenLabs for voiceovers, dubbing, voice cloning and sound effects, and Suno for original scores and background music.
- Produce and refine cinematic promotional content using CapCut, Filmora and Adobe Creative Cloud.
- Supervise DTF apparel production from initial vector artwork through final production output.
- Ensure all creative assets remain aligned with brand guidelines and communication objectives.

SRG ASIA PACIFIC SDN BHD

Operations & Communications Specialist | July 2025 – January 2026

- Managed structured data logging, documentation and administrative workflows.
- Coordinated client-facing communications and maintained project records.
- Supported operational reporting, information management and internal coordination.
- Ensured documentation was organised, accurate and accessible to stakeholders.
